<p>1. 授業目的・方法 (Course objective and method) This course will examine the methods available to students conducting research in the graduate school, and in particular towards writing an effective thesis. In addition to covering materials acquisition techniques and sampling techniques, the course will cover the basics of qualitative and quantitative design approaches, data testing measures, academic writing structure, ethics, and the requirements of academic/professional writing.</p> <p>2. 授業内容 (Course contents) Each week the course will deal with a particular topic (structure, sampling, etc.). Four times during the course students will present a review of a prominent paper in their given area. Similarly, outlining assignments will be required. 1-3 Background in Thesis Design 4-6 Organization 7-9 Research Structural Issues 10-12 Testing Measures and Ethical Issues 13-15 To Be Announced</p> <p>3. 使用教材 (Teaching materials) (Recommended) Kobayashi, T. and S. Clankie, Grammar Rules of Spoken English (Goken) ISBN 4-87615-133-4</p> <p>4. 成績評価の方法 (Grading) Your grade will be based on ability to complete the summary reviews and outline assignments on time and competently. Participation and attendance also matter.</p> <p>5. 成績評価の基準 (Grading Criteria) Evaluation: Evaluation is based equally upon participation (50%), and reviews, outlines, and a final bibliography (50%).</p> <p>6. 履修上の注意事項 (Remarks) none</p>
